

Sample CSCI 571 Exam Questions

Cookies and Privacy Questions [10 points]

Questions are worth 2 points each.

Question 1

0 / 2 points

Select TRUE properties of Cookies.

- ➡ ✖ ☐ Track user visits true
- ✓ ☐ Install malware false
- ➡ ✖ ☐ Track user IP address true
- ✓ ☐ Track user e-mail false
- ✓ ☐ Write data to disk false. But why GPT says this is also correct?
- ➡ ✖ ☐ Store Site Info true

HTML Questions

Question 2

0 / 2 points

HTML is a markup language that allows to capture information from viewers.

- ➡ ☐ a) True
- ☐ b) False

HTML5 Questions [10 pts]

Page 7

Each question is worth 2 points. Note There is NO PARTIAL CREDIT for any of these questions.

Question 3

0 / 2 points

Which of the following are not included in HTML5?

- ✓ ☐ CSS3 support
- ✓ ☐ graphics support HTML5 includes <canvas> and <svg> for graphics rendering.
- ✓ ☐ Sectioning elements HTML5 introduced elements like <section>, <article>, <aside>, and <nav> for better document structure.
- ✓ ☐ Geocoding support HTML5 provides Geolocation API to fetch a user's location. 但 geocoding (converting coordinates to an address) is not part of HTML5; it requires external services like Google Maps API.
- ✓ ☐ session storage HTML5 includes sessionStorage to store data for a single session.
- ✓ ☐ local storage HTML5 includes localStorage to store data persistently in the browser.
- ✓ ☐ video and audio support
HTML5 introduced <video> and <audio> elements for media playback without plugins.
- ✓ ☐ plugin support HTML5 aims to eliminate the need for plugins (e.g., Flash, Silverlight). Plugins are not part of HTML5. 但为什么这里说是included in HTML5啊?
- ✓ ☐ Offline Support
HTML5 includes features like Service Workers and AppCache for offline functionality.
- ✓ ☐ Forms validation
- ⇒ ✗ ☐ SQL support HTML5 initially included Web SQL Database, but it was deprecated in favor of IndexedDB. SQL-based storage is not officially part of HTML5.

Frameworks and Serverless Questions [20 pts]

Each question is worth 2 points.

Question 4

0 / 2 points
